This ride is one of my favorites! We rode the metric century and the route was scenic with just enough challenge to make it an enjoyable adventure. The staff were friendly and helpful and the food along the way was beyond all expectations - delicious fruits and veggies and great lunch and after ride meal. The tours at the various stops were informative and gave us a chance to learn things about our community that we would never have learned if it weren't for Tour du Green! I can't wait to do it again next year!

Kitty Bokoles, Ventura, CA

We rode the century on a tandem and we really enjoyed it.

Food was excellent and the staff were friendly and very helpful. Also the other cyclists were very friendly, we had a good time together.

We hope we can do this tour once again, not easy to say when, as we are from Belgium.

Sandra and Lieven Muylaert, Belgium

This was a fabulous ride. The stops were are "Green" sites in Ventura county...saw lots of solar panels, organic farms and innovative water use and re-use. The food was great (produce from the farms, as well as a great lunch!) and the volunteers staffing the stops and the start/finish were friendly and helpful. Great crowd of riders and the weather was perfect (a little cool at the start but fantastic after that). Great event and I'll definitely sign up next year!

The staff was uber-friendly and helpful, great route, wonderful concept for Tour du Green. I had no idea the places even existed. The stops were timed well and well-stocked. Routes clearly marked with excellent SAG support. I'll be back next year!

Great ride! Very well organized. All the volunteers were very helpful and friendly. Great info at the stops. We're doing the Century next year as we did the metric due to the fact it was our first time on road bikes instead of our usual mountain bikes. Good first experience!

great ride! climbs seemed harder than the Solvang century! on the third tough climb, i think SAG checked on us around 3 times! Good fresh food at the rest stops and clear markings. I plan to be back again this year for the 3 harbors tour! (would have LOVED to have a soda though at end and middle but you asked me what i wanted and i forgot to request that- so my fault!) thanks for a great and tough ride!
