**RE: American Society of Civil Engineers Scholarship**

On behalf of the American Society of Civil Engineers - Southern San Joaquin Branch, Los Angeles Section, the Executive Board would like to extend an opportunity to promising students to further their education and attain their career goals in the field of Civil Engineering. We have established a scholarship fund and are receiving applications until April 15, 2016. The executive board will provide funds for up to three (3), \$800 scholarships for the 2016-17 school year.

We have enclosed the scholarship program guidelines, application and reference forms for your use and/or distribution to deserving students. The Executive Board of Southern San Joaquin Branch of ASCE will choose recipients of the ASCE Scholarship based on an independent panel review of the student's application, transcripts and recommendations. If you have any questions, please contact Sandy Bergam at 661-410-9428 (sbergam@iwalkinc.com).

Thank you in advance for your consideration.

Sincerely,

Sandra L. Bergam, PE, PLS, M. ASCE  
Scholarship Committee Chair
