

Outstanding Practitioner Advisor

Kari Wagner, P.E. M.ASCE

San Luis Obispo Branch

Kari is a graduate of Cal Poly San Luis Obispo with a B.S. in Civil Engineering and is a registered Professional Engineer in California. She is an active member of ASCE, is the recent past president of the San Luis Obispo Branch, and is currently the Practitioner Advisor for Cal Poly San Luis Obispo Student Chapter.

Gregg L. Fiegel, PhD, P.E., G.E., Professor and ASCE Faculty Advisor, had this to say about Kari,

“ . . . I have known Kari since she was a student at Cal Poly. She was an excellent student and an extremely active ASCE member. Since graduating, Kari has been a strong supporter of the Civil Engineering Program and especially the Cal Poly ASCE Student Chapter. The students and I greatly appreciate the time that Kari volunteers to assist the student chapter with its activities. She serves as a great role model.

For over three years Kari has served as Practitioner Advisor for the student chapter. In this role, Kari regularly attends chapter meetings and events. She offers words of advice and encouragement to our students and seeks to provide them with opportunities for professional development. . . .

Overall, it's a pleasure to have Kari Wagner serving the Cal Poly ASCE Student Chapter as an advisor. She relates well with the students and is always eager to celebrate their successes. Also, she provides a great link to the profession and the local Branch. . . .”

Landon Kern, President, Cal Poly SLO Society of Civil Engineers, had this to say about Kari,

“As President of the Cal Poly Student Chapter of the American Society of Civil Engineers (ASCE) I have had the privilege to work with our ASCE Practitioner advisor Kari Wagner. Kari works very hard to ensure that our student chapter maintains a strong relationship with the local San Luis Obispo ASCE Branch. Kari attends many of our local events, such as our general meetings, to keep our members updated with announcements concerning ASCE SLO Branch activities. Our student members are encouraged to attend ASCE SLO Branch events such as the monthly meetings and officer meetings. This has opened up many opportunities for our members to develop relationships with local professionals and learn from examples set by the leaders/officers of the ASCE SLO Branch.

. . . Our student chapter is very fortunate to have Kari Wagner as a advisor and advocate.”
